Get Ready for Operation Walk 4 Freedom

Photo and story by Amy L. Bugala

Residents of the U.S. Army Garrison Bamberg community are being asked to lace up their shoes and get ready to put in the miles by participating in Operation Walk 4 Freedom.

Over 50 spouses, many with children in tow, gathered last week at the Bamberg Freedom Fitness Facility track to show their support for a new community-wide health initiative beginning in June.

"The objective of the program is to accumulate enough miles in one year to equal the distance to Afghanistan, or Iraq or wherever your loved ones or friends may be deployed, through walking, running or other activities," explained Angela Hunter, the Bamberg Health Promotion coordinator

From Bamberg, that's approximately 3,245 miles one way to Afghanistan and 2,000 to Iraq.

When asked how far she would walk to see her Soldier down-range Lauren Kemp, 173rd Special Troops Battalion spouse said, "Forever ...screaming kids and all, even to see him for only one minute". Speaking from experience Kemp said that this is their fourth deployment, and a program like this motivates her keep going, mentally and physically.

The spouses overwhelmingly agree that the program is a motivator for getting active and staying active during a stressful year.

"There are so many excuses you can use for not working out, and this program gets you up, out and going" said spouse Valerie Wells.

"It's definitely a stress reliever for me" said Susy Roe, 4th Bn., 319th Field Artillery Regt. spouse, who plans to log most of her miles with her Family Readiness Group by walking, biking and rollerblading. Roe and Wells said they are confident they will complete the miles and are ready for the challenge.

Hunter explains the health benefits of participation as seen in the results from the 2004 program.

"Past participants showed increased energy levels, mental awareness and an increased ability to cope and manage stress", she said. The distance can seem daunting at first but

Spouses of deployed Soldiers walk, run, bike, or rollerblade in support of troops in Iraq or Afghanistan, and encourage the entire Bamberg community to join them.

with the use of a pedometer, walkers can accumulate miles all day while going about their regular routine of walking the dog, chasing after the kids or running errands she explained to the group. Quarterly Walk 4 Freedom community sponsored events will be offered giving participants the opportunity to earn double miles.

All participants who register for the program during the Operation Walk 4 Freedom assessments will receive a free pedometer, (while supplies last) log book and assistance with goal setting, fitness and exercise plans.

Registration and assessments will be conducted at the FFF on:

Tuesday, June 12 from 9 a.m. to noon
Wednesday, June 13 from noon to 3 p.m.
and from 4:30 to 7 p.m.
Thursday, June 14 from 9 a.m. to noon.

The assessment includes a weight, blood pressure and heart rate check, a body fat assessment, and a flexibility and cardiovascular step test. Registering also includes a six month mid-term assessment and post assessment in June 2008. Anyone can participate and log miles starting on June 1 as an individual, family, FRG or other type of team.

Hunter expects participation levels this year to be close to 700 people. For more information contact the Bamberg Health Promotion office at 469-7043 or log onto www.bamberg.army.mil and download an activity log, mileage roster, information brochure and a contract of participation.

The scheduled performances for the Stable Theater's production of "Once Upon a Mattress" have changed! Show dates and times will now be on Tue. June 5, Wed. June 6, Thur. June 7 at 7:30 p.m.

Shipping pets takes preparation

IMCOM-E PAO release

Installation Management Command-Europe is gearing up for a very high volume of Soldiers and Families leaving Europe this summer. And many are returning home with their pets.

To ensure your pet's trip goes smoothly, here are some tips:

Plan Ahead.

Ensure vaccinations and health records are current. All pets need a health certificate that is less than 10 days old at time of flight, along with a rabies vaccination that is at least 30 days old but not older than one year. Animals not old enough to be rabies-immunized before travel need a note from a veterinarian waiving this requirement.

"It is also very important to have at least two copies of your orders because it will help speed your pet through customs and a complete contact address and phone number in the U.S. is required," said Jeff Schott, IMCOM-Europe transportation office. "It is also important to ask your sponsor or point of contact at your next duty station if any local or national pet restrictions apply."

Make Reservations.

Contact your commercial travel office to make reservations for your pet and all members of your household after you receive permanent change station orders and have a confirmed household goods pick-up date.

Be prepared.

The cost of shipping a pet can be expensive, with the owner being responsible for all costs. Ensure shipping kennels or cages meet standards for size, ventilation, strength and design. Animals must have enough room to stand up and turn around, and each species must have its own kennel with the exception of compatible cats and dogs of similar size. When in doubt use a larger kennel. Dogs and cats must be at least eight weeks old and must be weaned before traveling by air.

Before being shipped home, all pets need a health certificate that is less than 10 days old at time of flight, along with a rabies vaccination that is at least 30 days old but not older than one year. (Army photo)

Instructions for feeding and providing water to the animal over a 24-hour period must be attached to the kennel, noted Robin Brown-Jones, IMCOM-Europe

logistics division. "The 24-hour schedule will assist the airline in providing care for your animal in case it is diverted from its original destination," she said.

Pet owners are required to certify pets have been offered food and water within four hours of transport, and the documentation must include the time and date of feeding. Food and water dishes must be securely attached and be accessible to caretakers without opening the kennel. Food and water must be provided to puppies and kittens every 12 hours if they are two to four months old. Mature animals must be fed every 24 hours and given water every 12 hours.

Be Aware.

Restrictions on shipping pets are established to ensure animals are not exposed to extreme hot or cold temperatures. Restrictions can apply at originating, connecting or terminating airport locations. Owners will be notified in advance if a restriction applies, Brown-Jones said, adding that if a restriction is enforced, "your pet may not be able to fly on your scheduled flight."

Also, pets may be re-routed to another airport or held over until conditions at the origin or destination improve. "Please understand that this is done to protect the welfare of your pet," Brown-Jones explained. "Have a back-up plan just in case."

Commercial Pet Shippers.

An alternate option is to ship your pet through a commercial animal shipper. These companies have been around for decades and specialize in pet shipping. They offer daily departures, same day arrivals, boarding service, daily flights to more than 200 stateside airports, along with kennels available in various sizes. The cost is more expensive; however, they can normally ship your pet when restrictions are enforced by the airlines.

Additionally, there is no military entitlement to ship pets home when it is time to PCS, Brown-Jones stressed. "It is the responsibility of the member," she said, "to make arrangements and pay for the shipping costs." (continued on next page)

Visit the U.S. Army, Europe Customs web site at <http://www.hqsareur.army.mil/opm/pets.htm> for more information, contact the Bamberg Veterinarian Clinic (Bldg. 7252) Monday through Friday 9 a.m. to noon and 1 to 4 p.m. at 0951-300-7972. The clinic is closed on Saturday, Sunday and holidays.

Customs Tips for your Home-Based Business

A home-based business can be many things such as selling baskets, kitchen containers, make-up or pots and pans or providing services such as a fingernail studio or even trading items on the internet. There are dozens of possibilities for a home-based business, but no matter what products, goods or services you offer you must follow the home-based business rules.

The main thing to remember is that you cannot use your U.S. registered vehicle, the APO, the PX/BX, commissary or the tax relief program for your business. Not surprisingly, using your VAT form to support the business is off-limits too. You can download the pertinent directive, Army in Europe Regulation 210-70 or USAFE Instruction 211-16 (On-Post Commercial Solicitation), for more information or contact your local USAG-Bamberg Customs office at DSN 469-7460 or Web site at <http://www.hqusareur.army.mil/opm/customs.htm>

New scam targets Military spouses

American Forces Press Service

The American Red Cross is warning military spouses about a new identity-theft scam that targets family members of deployed troops.

The Red Cross was alerted of the scam earlier this month, said Deborah Goldberg of the Red Cross.

The scam involves a person with an American accent calling a military spouse, identifying herself as a representative of the Red Cross, and telling the spouse that her husband was hurt in Iraq and was medically evacuated to Germany. The caller then says that doctors can't start treatment until paperwork is completed, and that to start the paperwork they need the spouse to verify her husband's social security number and date of birth.

It is hard to determine how many spouses have been targeted by this scam, Goldberg said, as there are many ways for spouses to report problems like this. However, one confirmed report was enough for the Red Cross to act, she said.

"We know that it happened to one person; it was probably going to happen to others, and we wanted to be prudent and alert people," she said.

American Red Cross representatives typically do not contact military members or dependents directly and almost always go through a commander or first sergeant, according to a Red Cross news release. Military family members are urged not to give out any personal information over the phone if contacted by unknown individuals, including confirmation that their spouse is deployed.

In addition, Red Cross representatives contact military members or dependents directly only in response to an emergency message initiated by a family member, the news release said. The Red Cross does not report any type of casualty information to family members; the Defense Department will contact families directly about family members' injuries.

It is a federal crime, punishable by up to five years in prison, for a person to fraudulently pretend to be a member of, or an agent for, the American Red Cross for the purpose of soliciting, collecting, or receiving money or material, according to the news release. Any military family member that receives such a call is urged to report it to their local family readiness group or military personnel flight.

Do your part to save energy and conserve natural resources. Check back weekly for great energy saving and recycling tips brought to you by the Bamberg Environmental Office.

Energy saving tips!

- When you go on vacation, turn the temperature up in your fridge.
- Don't set your refrigerator temperature too cold. In some cases, a refrigerator consumes five times the electricity of the average television!
- 45°F is recommended for the refrigerator, 0°F for the freezer. Choose the right temperature for your fridges and freezers!
- Check the rubber seal in the door of the refrigerator: *test it* by closing the door over a piece of paper or a dollar bill so it is half in and half out of the refrigerator. If you can pull the paper or bill out easily, the latch may need adjustment, the seal may need replacing, or you might consider buying a new unit.

Recycling tips for home and office

- Reduce waste and energy consumption in the workplace—reuse your paper, if possible.
- Only print when absolutely necessary.
- If you do print, use both sides of the paper.

For more information on what you can do to save our natural resources and help reduce the effects of global warming contact the Bamberg Environmental Office at 0951-300-7730

Fronleichnam (Corpus Christi Day)

Fronleichnam, the "strength of the body and the blood of Christ" is celebrated on the second Thursday after Whitsuntide. The word "Fronleichnam" evolved from the words "fron" (Master) and "lichnam" (body), so it refers to the elements of the Eucharist. This celebration was first introduced in 1246 to the Diocese of Lüttich after Juliana von Mont Cornillon had visions. In 1264, Pope Urban introduced it to the whole Roman Catholic Church. In 1317, Pope John XXII moved it to Thursday. The celebration is popular because of the many richly decorated processions that take place on this day. The priest carries the ostensory which contains the communion wafers and the community follows him. Then prayers and benedictions at four outdoor altars follow. There is also a farmers' rule: *Just as many days of rain there are before Fronleichnam, so many days of rain we will see afterwards.*

Volksmarching in Germany!

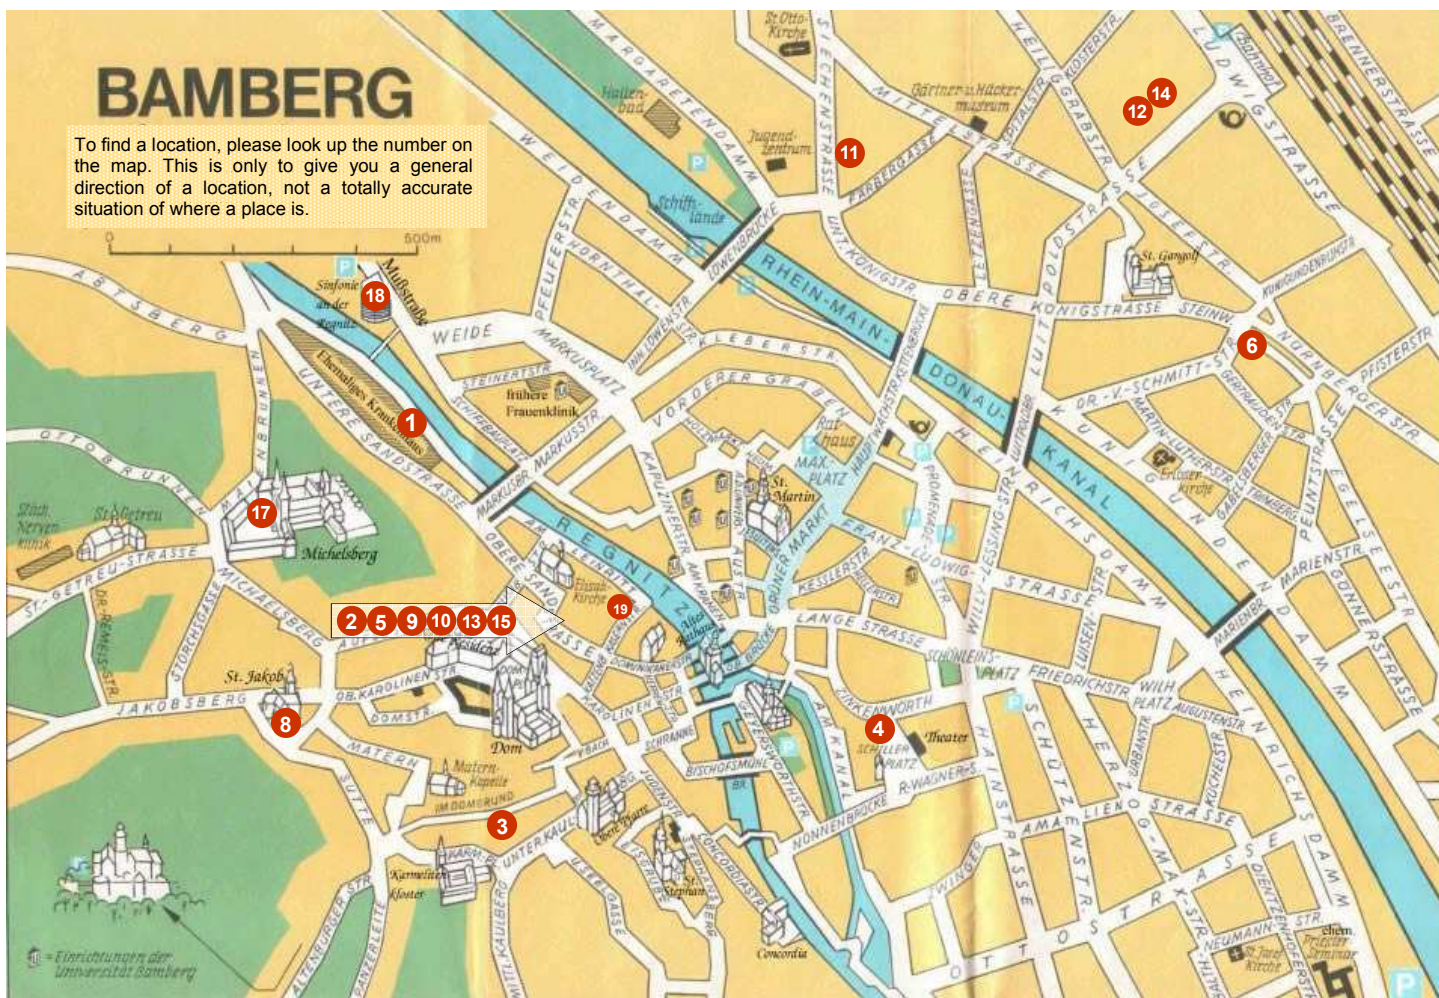

What is volksmarching? A volksmarch is an organized hike or walk which covers a distance of 10 or 20 kilometers (6 or 12 miles) usually through scenic or historical areas. It is designed to appeal to everyone, and is not a contest of speed or endurance. It is a lot of fun and a great opportunity to meet and make German friends. In volksmarching everyone is a winner! For more Volksmarching dates and details go to www.dvv-wandern.de (in German)
